

Riverside is the world's highest quality remote video capture solution. It's used by creators and companies across industries to produce audio-visual content for podcasts, virtual events, learning and development content and more.

Trusted by Thousands of Industry-Leaders Worldwide:

Our online studio's unique features and simple workflows save time and effort, and eliminate dependency on strong internet connections without compromising on quality.

Local Recordings up to 4K

With Riverside.fm, recordings will always be smooth and freeze-free, because we record locally - onto the physical devices of session participants - in addition to web backups.

Mark VideoCall.MP4

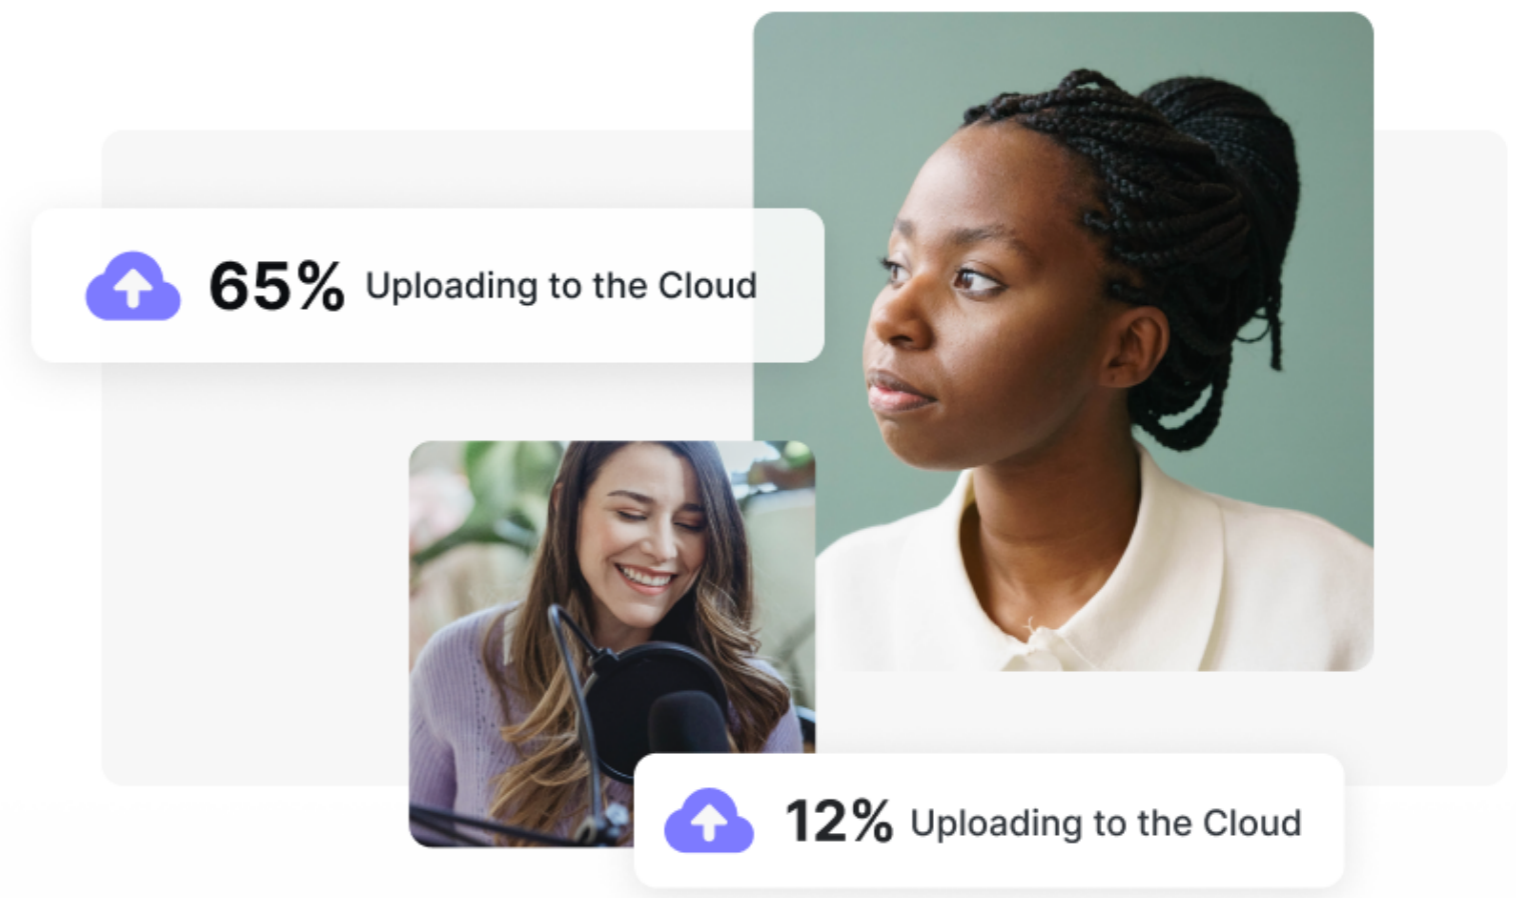

Mark VideoCall.WAV

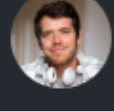

Uncompressed Audio & Video

Riverside doesn't compress the audio & video files, so you never lose their native quality.

Continuous File Uploading

With Riverside the local files are uploaded from each device to the cloud in real time, so they are available on the dashboard immediately after the session.

	Selina	100%	1280x720	WAV	MP4
	Katya	100%	1920x1080	WAV	MP4
	Moshe	100%	1280x720	WAV	MP4
	James	100%	1280x720	WAV	MP4

Separate Tracks

With Riverside you'll have separate files for each participant, giving more editing control

Our main Use Cases

Media: Some of the world's most esteemed news & entertainment organizations including NBC, Disney, VOX, Spotify, New York Times and iHeartMedia use Riverside to record podcasts and remote video interviews.

Enterprise: Some of the world's biggest corporations like Microsoft and Cisco use Riverside to record executive interviews, virtual events, marketing & PR content, training courses and more.

“A big thanks to Riverside. Just imagine, we needed a recording platform that could help us make a podcast during a pandemic and boy did they step up.”

Hillary Clinton
Host of 'You and Me Both' podcast,
67th US Secretary of State

You don't really believe that "One Pager" is one page right?! But you can really believe that "Ask us any questions" is really about any question you have. bottom line? feel free to contact our team.
