

Magicbox

You now weild the power of limitless creative possibilities with Magicbox, the world's first Mobile Virtual Production Superstudio™

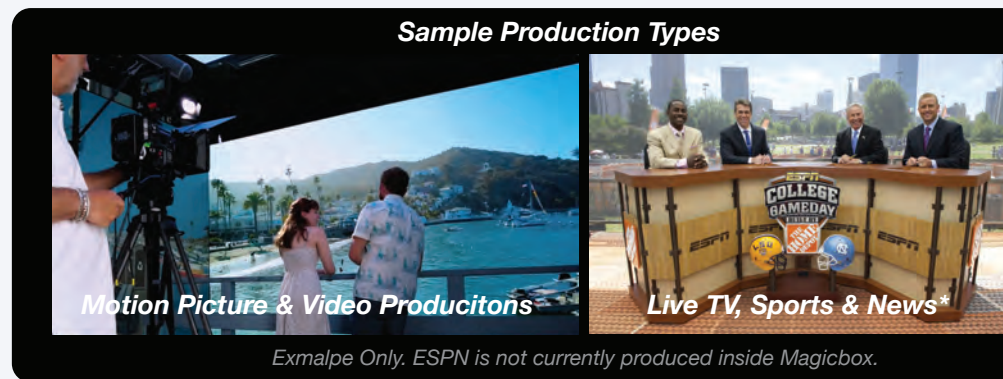

Magicbox is delivered, then right before your eyes it transforms from a semi-trailer into an LED stage for virtual production, live events and experiences.

Designed for the motion picture, video production, live event, and experiential industries. Magicbox is a fully functioning LED volume, computer control center, and camera motion tracking system that can be delivered anywhere from a soundstage, to an event venue, to a parking lot, or even to the street in front of your house. Just minutes after Magicbox arrives, it transforms from a semi trailer into an LED stage for performances or an LED volume for virtual production.

Magicbox Superstudio™

LED volumes are the the next evolutionary step in the motion picture, TV & video production process and we enable you to use them anywhere. No matter what your use is, Magicbox delivers Hollywood-calibre virtual produciton at a fraction of the cost.

Sample Production Types

Motion Picture & Video Productions

Live TV, Sports & News*

Exmalpe Only. ESPN is not currently produced inside Magicbox.

**This LED stage can be built by one person in about 10-minutes.
Can your LED wall say that?**

Magicbox Superstage™

With Magicbox a concert, festival, or trade show can pop-up anywhere in just minutes. How's that for efficiency, let alone costs savings? Don't waste your time doing the math, it's a huge @\$%! savings!
